SYNTHETIC SAMPLE - NOT A PEGA EXPORT
Generated by tools/blueprint-sample for Orqix tests and demos. It imitates a generic application blueprint outline and does not reproduce the layout of Pega's Blueprint export.

Case type: Equipment Purchase Request

Stages
- Submission
- Review
- Fulfilment

Personas
- Requester - submits purchase requests
- Line Manager - approves every request
- Finance Officer - approves requests of 5000 or more

Fields
- Item description (text, required)
- Amount (decimal, required)
- Cost center (text, required)
- Urgent (boolean, optional)

Steps
1. Manager approval (approval) - role: Line Manager; stage: Review; on reject: Rejected
2. Finance approval (approval) - role: Finance Officer; stage: Review; then: Approved; on reject: Rejected

Decisions
- Amount routing - after: Manager approval; if Amount >= 5000 then Finance approval; otherwise Approved

SLAs
- Manager approval: 2 days
- Finance approval: 8

Outcomes
- Approved (success)
- Rejected (rejected)

Integrations
- Purchase order export - target: none

Notes
Values in this sample are illustrative only.
